

I am an AI researcher...

- ✓ Ph.D. in Artificial Intelligence & Computer Vision -- Peking University
- ✓ Worked on industry projects, applying AI research to real-world problems
- ✓ Had a great time collaborating with other researchers during an exchange in Japan

Blending Research & Industry

... and a hands-on engineer...

- ✓ Built a 3D vision platform from scratch during my Ph.D.
- ✓ Created small automation tools & AI-driven applications for everyday tasks
- ✓ Launched a household inventory app as a full-stack developer, with embedded LLM for natural input

From Ideas to Working Systems

... and a passionate gamer!

- ✓ Board games, PC, console, I play them all!
- ✓ Loves tabletop RPGs – usually the Dungeon Master
- ✓ Modded and reverse-engineered (C#) my favorite games just for fun
